Container sizes	1 l 2.5 l

2. Technical Data

Density 20 °C	Approx. 1.00 g/cm ³
---------------	--------------------------------

3. Processing

Preparation	Brush off coarse dirt. Tie back plants (cover) and do not wet them.
Application quantity	Approx. 20-60 ml/m ² depending on the dilution or level of dirt. Allow for increased consumption with highly absorbent substrates.

Application

Apply Koralan® Wood Cleaner undiluted or diluted with water in a maximum ratio of 1:5 to the pre-wetted wood with a brush or sponge and leave it to take effect for a few minutes. Then clean with a scrubbing brush or cleaning fleece (pad). Repeat the application or extend the exposure time if necessary.

Optimum processing and drying temperature: +15 °C to +30 °C (applies to the substrate, Koralan® Wood Cleaner and the ambient temperature).

Drying temperature: at least +5 °C.

Then rinse with plenty of clean water and allow to dry. We recommend a subsequent treatment with Koralan® Wood Oil (hardwood) or Koralan® Wood Oil Special (coniferous wood) to achieve an attractive surface that is protected from the weather. We recommend that you always make a trial application.

Tool cleaning

Immediately after use with water and detergent.

4. Special Instructions

Instructions for use and warnings

Koralan® Wood Cleaner should only be used in accordance with the usage instructions.

Misuse may cause health problems and lead to environmental damage.

Keep out of the reach of children.

Keep away from food, drink and animal feeding stuffs.

If medical advice is needed, have the packaging or label at hand. Avoid skin and eye contact; wear suitable protective clothing (e.g. protective gloves, safety goggles). Clean hands and face thoroughly with soap and water after finishing work. Safety data sheet available on request.

Storage and environmental protection

Observe the statutory provisions for keeping ground water, surface water and air clean when storing and processing the product.

Only store in original containers! Seal container tightly after use.

Do not store at temperatures below +5 °C or above +30 °C.

Disposal

Ensure proper disposal of cleaning residues as well as containers that are not empty (collection point for hazardous waste). Place emptied (drip-free) containers in recycling material containers.
